

Chopstick Dexterity MegaChallenge 3000

How to Play

After besting opponents, the Chopstick Master faces a Final Victory Stage, a solo, timed event to determine if one becomes ultimate champion!

1. Place the five wild card color tokens face up on the spaces in the top row. Do the same for the wild card shape tiles in the left column.
2. When the player is ready, dump the colored pieces into the bowl. The player must pick up the pieces and place them in the grid with their chopsticks so that the pieces all match both the color and shape tokens.
3. All spool pieces must be standing on end.
4. The player that can place all 25 pieces correctly in 75 seconds is named ultimate champion.
